

BISBEE DAILY REVIEW

VOLUME V.

BISBEE, ARIZONA, TUESDAY MORNING, JANUARY 7, 1902

NUMBER 194

The Copper Queen Store.

Girl's Jackets Reduced to \$3.25 and \$4.25.

From \$4.00, \$4.50, \$5.00, \$5.50, \$6.00 and \$6.50. Let's see, there are at least three months—January, February and March—when such jackets as these will give good service. Just about a dollar a month for the warmth and wear—and stylish appearance—of such good jackets as these.

Then there's next season. \$3.25 and \$4.25 are little enough prices, but when we think ahead a bit—the prices seem even lower.

Some of the kinds:

Blue jersey, inlaid velvet collar with rows of stitching; vertical pockets. Reduced from \$6.00 to \$4.25.
Red and blue jersey, full back, turn back cuffs and edge, collar edged with cord of velvet; stitched seams and rows of stitching around skirt of jacket. Reduced from \$6.50 to \$4.25.
Green jersey, full back, vertical pockets, turn back cuffs, edged with mohair braid. Reduced from \$5.00 to \$3.25.

For girls of six to sixteen.

Black Satine Petticoats

To our own good line of these goods, there has recently been added several dozen sent us as samples. There are no two alike in this lot, and although manufacturers are loath to admit that there samples are better than regular goods—it is pretty safe to say that samples represent the best efforts of the makers. These sample petticoats therefore are apt to be a trifle better than the average stock petticoats.

Of highly mercerized satines, with ruffles, accordion pleats, flounces—in as many styles as there are petticoats. From \$5. to \$3.00.

In our regular stock are black satine petticoats, lined with flannelette—for warmth. Prices are from \$2.00 to \$2.50.

At \$2.00 there is a petticoat of black satine, with just rows of stitching around the bottom—no ruffles or flounces of any kind. Made just especially for wear with the walking skirt.

NOW!

WHEN YOU COME TO THINK OF IT!

You ought to have a pair of new shoes, and if you will come up and see the new ones we just received straight from the factory, and the nice easy price that goes with them, you will certainly be wearing one of those glad smiles that you always wear when you have on a swell pair of shoes. And, by the way, don't forget that we have a dandy line of hats, too, as well as anything else in Gentlemen's Furnishings.

BOARD OF SUPERVISORS

Open Bids at Tombstone for Feeding Prisoners, County Hospital and Public Printing

TOMBSTONE, Jan. 6, 1902. The board of supervisors met in regular session this morning at 11 o'clock, with Chairman York and Supervisor Reay present.

Bids for feeding prisoners, care of county hospital and public printing and advertising were opened at 2 p. m.

The lowest bidders were:
For boarding prisoners at Wilcox, John F. Crowley at 25 cents per meal.
For boarding prisoners at Bisbee, Otto Geisenhofer at 20 cents per meal.
For boarding prisoners at Tombstone, Mrs. Lowry at 14 cents per meal.
For care of county hospital, B. C. Tarbell at 60 cents per day for each patient.

For printing property tax receipt books, Bisbee Daily Review, also licenses and road and poll tax receipts.
For printing delinquent tax list, Bisbee Daily Review.

Printing letter heads and envelopes and legal blanks, Tombstone Prospector.

Printing proceedings of board of supervisors, Tombstone Prospector.

Owing to the absence of supervisor Delehanty, who was detained at Benson on account of an accident, no contracts were awarded today, but will be taken up the first thing Tuesday morning.

To Answer for Smuggling

Paymaster Robinson, of the Southern Pacific railroad, was in Benson Sunday and proceeded in his car to Nogales, where he and others of his staff were to have a hearing yesterday on a charge of smuggling cigars across the Mexican line about a month ago. Customs officers seized more than twenty boxes of cigars that were being passed into the pay car by a Mexi-

can. The cigars were confiscated and Paymaster Robinson and others arrested and placed under bond.

Frank Cox, attorney for the Southern Pacific company, and C. C. Crowley, the company's chief detective, accompanied Mr. Robinson to Nogales, where they will represent the Southern Pacific company in the hearing. The trial was set for 10 o'clock on Monday, and a number of witnesses have been summoned, among them H. H. Flowering of Tucson, who was customs inspector at Nogales at the time the seizure was made and took an important part in it.

MEXICAN KILLED.

Hand Car on the Southern Pacific Struck By a Pay Car

Sunday morning the south bound pay car en route to Nogales ran into a hand car bound for Fairbanks, about three miles south of that place, and as a result one Mexican laborer, name unknown, was killed outright and another section hand was killed and another man was injured.

The hand car was coming towards Fairbanks and was loaded with section men. Two Mexicans were sitting on the rear end of the car and were unable to see their danger until too late to jump. The remainder of the crew jumped just in time to save their lives. The accident occurred on a curve and the section crew did not see the pay car until it was right on them.

The wounded man was brought to Fairbanks and from there taken to Tucson. His less fortunate companion was buried there the same day.

25 cent or 30 cent baking powders are made to satisfy the demand of people who think "anything will do."

Schilling's Best is cheaper than such baking powder in every way.

Criticism of Navy Long Objects to It.

Washington, Jan. 6.—Secretary Long don't relish the criticisms that have been coming in recently concerning the Navy department and today issued a statement defending the department. This he says was made necessary by unfriendly criticisms concerning the distribution of prize money. He says Sampson received the money from the court of claims because he was the senior officer and was entitled to it, no matter where he was. Secretary Long says, however, that the department does not approve of this law.

Washington News

Dewey in Florida

Washington, Jan. 6.—Admiral Dewey and his wife, accompanied only by a valet and maid, left here this morning for Palm Beach, Florida. Mrs. Dewey's health is quite poor and their stay in the south will be indefinite.

Washington, Jan. 5.—Senator Keen, of New Jersey, announced the death of Senator Sewell to the senate today and offered the customary resolutions, whereupon the senate immediately adjourned.

Washington, Jan. 6.—In the house today a resolution was offered declaring that any assault on a president of the United States should be punished by death.

Walla Walla Disaster French Captain Speaks

San Francisco, Jan. 6.—The captain of the French bark, which collided with and sank the Walla Walla last Friday night, in a statement made today said the collision was due to the fact that the lookout on the steamer was intoxicated and, therefore, he blames the officers of the steamer. There are about 47 of the Walla Walla's crew and passengers still missing.

Wheat Makes New Record.

Chicago, Jan. 6.—Wheat made a new record today when the highest price of the year for the crop touched eighty-four cents a bushel.

Senator Berry's Condition Critical

Little Rock, Ark., Jan. 6.—Advices from Bentonville today indicate that United States Senator James H. Berry is suffering greatly from the injuries he received two weeks ago at Newburg, Missouri, by a fall. He is able to sit up for brief periods, but is still far from out of danger.

The amputated leg that was injured is black from the contusion its entire length, and the danger is from erysipelas or other disease arising from the inflammation. It may be a long time before General Berry will be able to take up his senatorial duties.

COOKSTON INSANE.

He Had Been Employed As Clerk in Naco Custom House.

Frank Cookston was on Saturday last adjudged insane by Probate Judge of Pima county. The examination took place in an iron cell in the county jail, where the man had been confined since the arrival of the Nogales train in the morning. The examining physicians were Drs. Purcell and Brandon. Their opinion was that the patient was suffering from paresis of the brain.

Mr. Cookston said he was 53 years of age, a native of Maryland, and a widower. He resided in Pima county seven months. Five months ago he went to Naco, where he was employed as a clerk in the custom house. He appears to have worked steadily until about two months ago, when he began drinking heavily. The excessive stimulation played havoc with his nervous system. Delirium tremens followed, and two weeks ago he began to show signs of mental aberration. Dr. O. W. Brandon made up a subscription among the business men of Naco to pay his fare to Tucson. The man was so weak that he had to be carried from the train to the bus.

While Frank Cookston was in Cochise county at the time he went insane, it is presumed he was a resident of Pima, since he had been appointed to the customs service from Tucson. It was the intention of Dr. Brandon to have him sent to the hospital, but symptoms of insanity were developing rapidly, and when he arrived in Tucson it was feared that he might become violent, so a warrant charging him with insanity was sworn out.

Declined to Interfere

Washington, Jan. 6.—The supreme court today declined to interfere in the case of Captain Oberlin Carter, who tried to get out of Leavenworth penitentiary on habeas corpus proceedings. The court also affirmed the lower court's decision requiring Carter's associates to go to Georgia and stand trial.

Two Steamers Sunk.

Lisbon, Jan. 6.—The British steamer Alphonso, which left Newport for Gibraltar loaded with coal, collided last night with the Spanish steamer Villava and both vessels were sunk. Eighteen of the crew of the Alphonso were drowned and three passengers in the Spanish ship. Twenty-four of the crew of Villava and captain of the Alphonso were picked up by a passing vessel and brought here today.

Territorial Mining News.

OLD DOMINION.

The employees of the Old Dominion Copper Mining and Smelting company were given a holiday yesterday, work being suspended and the smelter shut down for the purpose of making needed repairs after a continuous and very successful run of several months. This morning work was resumed in every department with the usual complement of men, and the new year gives promise of being as active and prosperous for the company as was the year just closed. The company continues to receive large quantities of supplies and has an abundance of fuel of all kinds on hand. Four cars of oil were received last Sunday, and others will follow as needed. Oil has been burned under the boilers of the smelter for some time past, and at the mine oil is being used for a boiler, and by the end of the week the battery of three boilers will have been equipped with oil burners. As the prosperity of the town depends to a large degree upon the operations of the Old Dominion company, the outlook is certainly reassuring.—Silver Belt.

The Tucson correspondent of the Los Angeles Mining Review, under date of December 24, says: S. A. Parnall, former superintendent of the Old Dominion at Globe, has been engaged to superintend affairs on the Oxide Copper Mining company's properties, which are being developed in the Silver Bell district, forty miles west of Tucson. He goes out this week. There are 200 men working in the district, chiefly in the Old Boot camp, where the Zeckenrods of Tucson are operating a smelting plant successfully. Tri-weekly stage communication is now open between Tucson and Silver Bell.

The Tucson Citizen says the Azurite mine, which has been in litigation for some time, was relocated by three different parties on New Year's eve. The mine was purchased by L. Zeckenrodt & Co. at a sheriff's sale, and a motion to set aside this sale was denied by Judge Davis recently.

Albert Steinfeld sent Mr. J. M. Curtis out to do the assessment work after this decision had been made, posted notices on all the claims in the name of the firm he represents and began work on the property. New Year's eve Phil Sheridan and a mining man named James, from Phoenix, located the property in their own names. It is presumed that they proceeded under instructions from Shirley Christy, who was interested in the mine before it was sold at sheriff's sale. He is now in New York city. If these locations were legal each one would have a third interest, but it is doubtful whether they will stand, as the property has been in litigation up to a few days ago. The former owners have six months to redeem the property by paying a penalty of 9 per cent of the price paid by the purchasers. The Azurite mine gained some notoriety only last year because of the prominence of those interested. The owners included L. C. Hughes and Myron H. McCord, two ex-governors of Arizona. A smelting plant was started and considerable copper was produced, when trouble arose. The mine has been idle for several months.

A Worthy Organization.

Mrs. Clough, of the Economic club and Charitable Association, of Bisbee, yesterday visited the REVIEW office. This organization is a new one that has undertaken to supply the needs of deserving helpless and poor persons. Under its auspices a charity ball was given at the opera house on the night of December 28th. The cash receipts of the ball were \$238, and all the expenses incidental to it amounted to \$54. The sum of \$184 has already been expended in the relief of poor persons and the club now has \$112 to its credit in the bank.

Many people who are deserving and in actual need of charity dislike to be known as such, and for this reason the ladies of this club do not make known the names of those who receive help from it.

The club met last Saturday at the residence of Mrs. Clough, sixteen members being present, and received various reports from committees and also elected a set of officers for the management of the business of the club. The following officers were elected for the ensuing year: Mrs. Wood, president; Mrs. Meyers, vice-president; Mrs. Welsh, treasurer; Mrs. Clough, secretary. Bisbee is fortunate in being the home

Venezuela Government Secures British Vessel

London, Jan. 6.—News has been received here that the British steamer purchased in Martinique by supposed private parties is now the Liberator, of Venezuela, and is doing service off the coast. British sailors have joined her and are now wearing gold lace, living high and receiving large pay. The transaction has been called to the attention of the admiralty and additional complications are likely to ensue.

of such a club, and the poor are more fortunate because of its presence. All applications for charity are thoroughly investigated as to worthiness. The ladies of this club received the handsome donation of sixty sacks of flour recently from Mr. Brophy, of the Copper Queen store, which they are distributing where it will do the most good.

For Sale.

1,000 shares of South Bisbee stock. Address Box 191, Bisbee P. O.

Copper Still Lower.

New York, Jan. 6.—Metal quotations for today are as follows: Copper, 11 1/4; Silver, 55 7/8; Lead, 84.

Old Liberty Bell.

Philadelphia, Jan. 6.—Midst the booming of cannon from the navy yard, the Old Liberty Bell left this morning for the Charleston exposition, where it is scheduled to arrive next Thursday.

AT THE FAIR

The Greatest Success

Of the season was scored by us in our annual before taking inventory sale. The anxious eager shoppers crowded our stores during the past few days and the crowd still continues to come. Such great value giving prices were never seen here before, and the public has found that we gave better values than advertised. Everything has been cut in prices, nothing left untouched. In our shoe department more than 130 pairs were sold in one day. Special shoe fitters have been provided and a perfect fit is guaranteed.

Ladies Shoes

We have just received a new line of ladies' high grade, Drew, Selby make shoes in C and D widths and include them in this sale.
